Features & Benefits

- Lightest product in the market—1/10th the weight of steel (same diameter)
- Fastest installed system—compared to all others available
- Structurally as strong as carbon steel
- Manufactured from non-corrosive marine grade aluminum—guaranteed highest quality air delivery
- Superior construction and design—allows highest flow rates and lowest pressure drops
- System flexibility—simple modifications and/or additions
- Exclusive Lifetime Warranty
- Manufactured from 100% recyclable materials
- Marine grade aluminum construction—prevents rust and system deterioration
- Zero corrosion—eliminates expensive production downtime and dramatically reduces maintenance costs
- Smooth internal diameter—ensuring higher flow rates with less turbulence than traditional iron pipe throughout the life of the system
- High quality powder coat finish
- Lowest cost of ownership available
